

SERVICES & PROJECTS

Information resource

We maintain the most active news stream and public source of information on Asian sustainable investment issues and practice at www.asria.org

Events

We organize a wide range of briefings, roundtables and forums on topical ESG issues, with the aim of raising capacity and engaging our members and network around the region.

Research

We produce critical foundation research on sustainability issues and the integration of ESG at the sector level in Asian portfolios.

Portals

ASrIA's website www.asria.org hosts portals on key investment themes and issues: SRI Funds, Philanthropic Investment, Climate Change and more.

Training

We provide senior executive briefings, management workshops and staff training packages on SRI and sustainable finance suited to your organisation's needs.

CDP

ASrIA leads the Carbon Disclosure Project (CDP) in Asia with our own sample and collaboration with regional partners to provide a comprehensive picture of carbon reporting, performance and policy trends in Asia.

Shareholder Engagement

Working with PRI signatories and sister Sustainable Investment Forums (SIFs) globally, we provide coordination and support to efforts such as the Emerging Markets Disclosure Project (EMDP).

AIGCC

The Asia Investor Group on Climate Change, an ASrIA Initiative aims to provide investors the opportunities to identify areas of collaboration on climate change issues so informed investment decisions can be made.

partner in Asia for the Carbon Disclosure Project

17,000+

monthly web-hits

“Transforming Asia through Sustainable Finance”

ASrIA has taken a leadership role in promoting corporate responsibility and sustainable investment practice in the Asia Pacific Region since our founding in 2001.

We are a not-for-profit, membership association. Through fostering the creation of SRI products and services, we aim to build momentum for sustainable investment in the region.

Our members include asset owners, investment managers, ESG research houses, investment and professional service providers, corporates, civil society organizations based in US, Europe, Japan, Greater China, Korea and Southeast Asia.

We provide:

- Insightful research
- Relevant news, information and resources
- Influential networks
- Focused engagement
- Thought leadership
